

TYRE PROTECTION CHAINS

Designed in South Africa • Shipped Worldwide

VISIT US AT JAPAN EXPO 2026

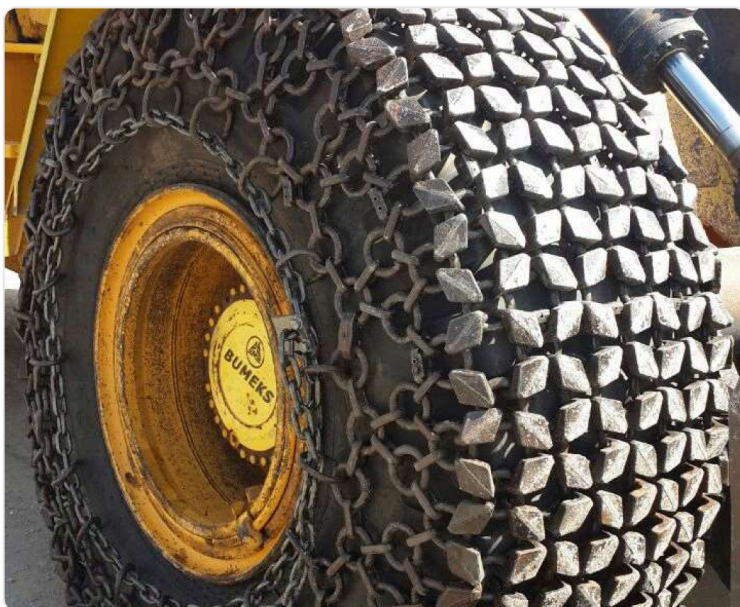

THE NEXT GENERATION OF TYRE PROTECTION CHAINS

OFFICIAL ANNOUNCEMENT - Japan CSPI Expo 2026

Omega Chains has officially announced at the Japan 2026 CSPI Expo that its **latest-generation** Tyre Protection Chains now **outperform** all major European brands, achieving:

- ✓ 300% higher tensile strength than German brands RUD / ERLAU
- ✓ 200% higher tensile strength than Austrian PEWAG
- ✓ ~30% higher wear resistance than both German and Austrian competitors

This positions Omega Chains as the new global leader in TPC metallurgy, durability and field performance, at a significant lower offering to the maximum saving to clients, with the best price: hour accomplishment.

Proven in the Toughest Mines – Mining, Quarrying, Construction

MAXIMIZE TYRE LIFE. MINIMIZE DOWNTIME.

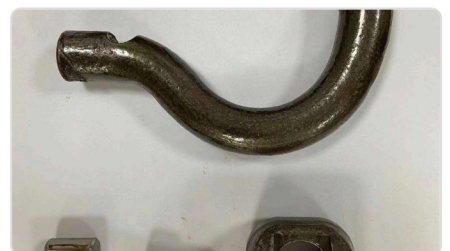

- ◆ Heavy-duty TPC for loaders, haul trucks, graders
- ◆ 4x4 and 6x6 chain designs for optimal coverage
- ◆ 22mm+ repair rings for fast field maintenance
- ◆ Extends tyre life 3–4x in abrasive conditions
- ◆ Reduces cuts, punctures and heat damage

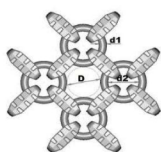

Complete Size Range

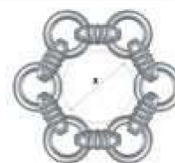

Heavy-Duty TPC

22mm Repair System
